

TCM Forklift Parts

TCM Forklift Parts - In the international business of material handling, lift trucks play an important part for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the United States, forklifts gained recognition following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread globally.

In the year 1949, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply called TCM Corporation. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the business. TCM started constructing forklift manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over fifty years of accumulated expertise and technology, TCM has been proudly making several models of industrial trucks, making their models recognizable all over the world. With a strong and energetic employees, TCM has been able to continually work towards becoming a future leading material handling business.
