

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically start to both dump and release when the bumper release contacts the side of a dumpster. As soon as unloading is finished, the hopper could return to original upright and locked position. This particular piece of machinery likewise comes with a cable that allows operation from the seat of the lift truck in order to have the choice of manually unloading the hopper. There is a locking chain provided to lock the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper likewise has a blue powder coat finish to maintain durability.
