

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader maker all over the globe. They have been a devoted manufacturer of spreaders for different applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in house by way of utilizing the latest CAD systems and FEM tools. The ELME business now has over one hundred twenty five workers. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-over the world.

The ELME product collection offers spreaders meant for a variety of container and trailer handling operations. Several of their inventory comprise: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes plus a huge variety of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by making use of quality components to be able to ensure dependability and top standards. Major features of ELME comprise design simplicity, market response and inventive modular spreader concept.
